Melrose

1892 January 1

From Our Regular Correspondent:

Christmas was spent in a very quiet manner by our citizens this year, the only diversions being the ball given at the Central Hotel by W. L. Robbins. Although the attendance was not very large, all present had a very enjoyable time and pronounced the ball supper to be the finest ever eaten in this neighborhood.

Miss Rose Darby and J. Z. Clem were united in marriage Dec. 24, at the residence of Rev. H. J. Van deVen, in Butte city. After the ceremony, they returned to the home of the bride's parents near Sheridan, where a reception was held Dec. 27. Mr. and Mrs. Clem will reside in Melrose where Mr. Clem is engaged in teaching school.

Yesterday Ed. DeCelles of Glendale, cut an artery in his left arm, which will disable him for some time. The report is that he was holding a knife in one hand and with the other was attempting to catch a chicken, and, in some accidental manner, gave his arm the painful gash above mentioned.

Mr. and Mrs. Roth returned from Butte Saturday, having arrived at the conclusion that the pure air of Melrose is far more enjoyable than the smoke of Butte.

G. H. Cokendolpher returned from Kentucky, Wednesday. We regret to say the sister, whose illness called him home, only

lived a week after his arrival in Kentucky.

Chas. Harvey will move his family from Glendale, in the course of a couple of weeks. They will occupy the neat little cottage owned by W.L. Robbins.

The new short order restaurant is doing a thriving business. Its patrons speak highly of the meals served there.

The mines in our vicinity are all being worked by their owners, and as the new year approaches, many are hurrying with their representing work, least the dreaded "jumpen" will be abroad. Butte speculators are beginning to realize that the mines around Melrose are worthy of their notice, as many of them are daily investing in claims in this vicinity.

Morgan & Nicholls have ten men at work on the Horn Silver and rumors are afloat that it will change hands after Jan. 1, when a larger force of men will be employed.

At the Pandora mine, situated on the divide between Camp creek and Soap gulch, twelve miles from here, they have recently erected a large boarding house, stables, etc. and at present have a force of fifteen men running a night and day shift. They have sunk over two hundred feet and ship, on an average, three carloads of ore per month to Butte. This mine was recently stocked for \$65,000, the price of shares at present being \$1.00 and none in market. Last month it paid a five cent dividend besides depositing \$1500 in the bank as the commencement of a fund to be used in the erection of a stamp mill in Soap gulch, in the early springtime. Then much of the low grade ore can be worked which at present it does not pay to ship to Butte.

GLENDALE

From Our Regular Correspondent

Another year has departed taking with it many burdens, cares, and sorrows and I hope that this, the new year, may bring peace, happiness and prosperity to all.

The ball given here Jan. 1st, by the I.O.O.F., was in every feature a decided success. The weather being nice, the people crowded in from all the adjoining places, Hecla, Melrose, Divide, Dewey's Flat and Butte being well represented. About 108 tickets were sold. The music furnished by the Orten Bros., of Butte was excellent. A bountiful supper was served at Iowa hotel, to which everyone did ample justice. Dancing was indulged in until 5 o'clock when the crowd scattered and everyone went home with the thoughts of a good time fresh in their minds.

Will Knippenberg starts tomorrow for Indianapolis on a two weeks' vacation. He will be accompanied home by his wife and child, who have been visiting there for the past three months.

Tom Sappington and family left here last week for California where they intend to spend the winter. We wish them a safe journey, and when spring comes we will be glad to welcome them back to Montana.

The Hotel Meade.

The Hotel Meade at Bannack was opened Sunday, January 10. It is a brick structure, remodeled from the old county court house. It would be a credit to a city and one cannot help admitting the

enterprise of Dr. J. S. Meade, the proprietor.

The hotel has 27 sleeping rooms, and they have been full since the opening. The rates are \$2.50 per day. See the ad in this issue.

Leap year was ushered in at "The Bar" with all due formality. The ball given by the ladies was an entire success. It was a matter of considerable remark, how the countenances of the bachelors seemed to brighten after New Year's Day. Our city is full of these antiquities, which have been miserable for the best portion of their lives. For the past two weeks they have been regular callers at the post office at mail time to see if perchance there is not still some one among their fair acquaintances who will, if not personally, at least by mail help them out of their terrible situation.

Among those who recognize this year to be their last chance are: Chas. Parks, Eugene Carver, Perry Haddon, Al Brubaker, Carroll Jewel, Chester Kealiher, Ralph Dutch, Geo. Crawford, Ed Kenney, Jerry Barrett, P. Lillis, Al McDonald, Robert Schultz, James Long and I might mention many others but for better knowing the timidity of gentleman in general on matters of this kind and only publish the names as a gentle reminder to the fair sex in general.

SPOKANE RECOVERING

Montana's Wonderful Horse Said to be Improving

Fred T. Counter, who has charge of Noah Armstrong's stock ranch and stud of fast horses at Twin Bridges, is in town. Mr. Counter takes great interest in the coming race meeting and will probably enter several horses. He informed a Tribune man that Spokane, the

Montana horse that astonished the world a year or two ago, is recuperating on the succulent blue grass of Mr. Armstrong's Kentucky stock farm and that in all probability he would be put on the track again in the course of a year or two. Spokane, it will be remembered, broke down after his first brilliantly successful racing season. The cause of his sudden collapse is not generally known. While cleaning his stall a brutal jockey stuck the valuable horse with a rake. Spokane jumped and fell, the fall wrenching his spinal column, and for a long time it was thought he would never recover. The best veterinary surgeons, however, have changed their minds lately. He is improving rapidly and his complete recovery is not out of the question..

Glendale

From Our Regular Correspondent

Glendale, March 30 – Hon. Henry Knippenberg returned from Indianapolis last week, where he has been the greater part of the winter.

While out driving last Wednesday, Konrad Helbinger met with what might have been a very serious accident. The horse he was driving became frightened and unmanageable, throwing Konrad from the cart, and got tangled in the fence, breaking the cart and tearing the harness all to pieces, but luckily the horse and driver escaped with a few light scratches.

“Our Boy” Dave is out again on the H. M. & B. delivery wagon, after a few days illness.

A meeting was held at the church last Sunday for the purpose of reorganizing the Sunday school, which has not been held for some time. The following officers were elected. Superintendent, W. Knippenberg; assistant superintendent, G.G. Earle; secretary, T.W. Williams; treasurer, Mrs. W. Knippenberg; organist, G. B. Con-way; assistant organist, Mrs. C. Harvey. We hope by the spirit manifested from the large attendance at the meeting that

the interest taken in the future will continue with as much zeal.

The greatest fad for the season, in Glendale, is driving. Nearly all the gentlemen have new eastern rigs, including double and single buggies, buckboards, carts, sulkeys, etc. Some large enough to take the family, minus your mother-in-law, and some with just room enough for two.

Henry and Ben Gelhaus have returned from the Pedo mine, near Sheridan, their supply of grub having been consumed and it was impossible for them to take in a second supply at this season on account of the deep snow. It is now down about 140 feet.

The Colorado Mining company sub-leaseders of the Watseka mine at Rochester, has suspended operations. Everybody is anxiously awaiting the result and hopes are entertained that the suspension is only temporary. Melrose being the supply and shipping point is considerably interested.

C. J. Collins leaves for his old home near Chicago about the

15th inst. He expects to be gone two or three weeks.

The Pandora Company began their quartz mill last Monday. They expect to be running full blast by the 1st of May.

The Watseka Closed Down

The Watseka mine at Melrose closed down Monday, and all work upon this promising property has been suspended. The Wauseka was bonded about a year ago to D.G. Ricker in the sum of \$60,000 and was by him re-bonded to the Colorado Mining and Smelting Company for \$60,000 more. This company has worked the property during the past three months, and some time ago it was rumored that both bonds were to be lifted by the Colorado company.

The cause of the suspension is said to be the enormous quantity of water encountered. Large and expensive pumping machinery had been placed in the mine some time ago. Recently during the development of the mine a stream of water was struck which almost deluged the men in the shaft and taxed the pumps to their utmost capacity. The water kept increasing and Monday it was decided to shut down. The machinery has not been removed yet, but it is not likely that work will be resumed until some of the neighboring properties are started up.

InterMountain

W. H. Redmond of Belmont Park has sold to Will Knippenberg of Glendale the fast colt "Hecla" (standard and registered). Twenty-one months old. Mr. Knippenberg announces that Hecla will be reserved as a private stallion during the present season and will be mated with but the highest type of mares.

Mrs. F. R. Merk and granddaughter have returned from Spokane, where they have been visiting the past winter. Mrs. M is much pleased with that country.

THE PIONEERS MEETING

Usually Held on May 24th, May Be Postponed Until July 9th.

A number of the members of the Pioneers society of Beaverhead County are talking of postponing the annual meeting from the 24th of May until the summer race meeting of the Dillon Fair and Racing association. Yesterday a group of them were discussing the matter in the ante-room of the G. W. Dart Hardware company's establishment, the place where the pioneers are wont to meet when in Dillon and narrate strange tales of gold, gore and adventure and live over the thrilling days of the '60's.

Phil Lovell is in favor of putting the meeting off until the date proposed. By waiting until this time, when Southern Montana will be holding high carnival, he thinks the meeting might be more generally attended.

Robert Wing is also in favor of the postponement. He says that while his conscientious scruples might keep him from the race track there are other Pioneers who would enjoy purchasing an occasional mutual.

George M. Brown and W. R. McIntosh do not look upon the scheme with favor. Mr. Brown reminds His Grace, Philip, the Duke of Beaverhead that St. Patrick's day is always celebrated on St. Patrick's day. Mr. McIntosh says that on the same grounds, the celebration of the glorious Fourth of July might be postponed until cooler weather.

General Joe A. Brown, John F. Bishop, George W. Dart, Joe Shinberger and Mrs. Mary Shinberger endorse the proposed postponement. Phil Lovell, the president, and R. T. Wing, the secretary, will be glad to receive letters touching on this subject from members of the society.

But whether the meeting is held on the 24th of May or on the 9th of July it will be a gala day and the old-timers will be out in flying colors. It will be a blow-out on a scale elaborate and grand.

Resolutions too lengthy to insert here, were read and adopted.

The following committee was then appointed to craft articles of association; Al Fansher, A.P. Hungate and H. W. Brown.

During the absence of the committee the meeting was addressed by Mr. T. H. Teal on the silver question, which was done in a very clear and able manner.

The committee reported a form of constitution which was unanimously adopted and signed by fourteen members.

The name of the organization is to be People's Party Club of Glendale.

Since the evening of the meeting many more names have been added to the list and it is beginning to be apparent that the People's party will almost make a clean sweep of the gulch, as some faithful workers are now busy at Hecla and an organization is soon to be formed up there in the land of perpetual snow.

GLENDALE

Glendale, July 10.—Glendale was not at all behind her neighboring towns in celebrating that day which is dear to all patriotic Americans (the Fourth of July). The salute of cannon at sunrise awoke slumberous from their dreams and made them think what a glorious thing it is to be free and independent. Several families went out on a fishing excursion; among them Mr. T. Sappington and family, Dr. Watrous and family, Mr. and Mrs. Will Knippenberg and Mr. and Mrs. T. Williams. The grand ball in the evening was largely attended, about 70 couples, and the lovers of that social enjoyment tripped the light fantastic till daylight dawned upon them. The Orton brothers furnished the music and everything was conducted in an excellent manner. Supper was served at the Iowa house, to which everyone did ample justice.

The "Leap Year ball" given last Friday evening by the young ladies was considered by all who attended one of the best conducted and most enjoyable held here for some time. The noble way in which the young ladies displayed their gallantry would have done justice to any hero. About 25 couples were in attendance and dancing was indulged in until two o'clock when the merry dancers departed for their homes with the memory of a pleasant time fresh in their minds, and the young men all wish that every year were leap year.

Mr. John Rea, who has been very sick for the past two weeks is able to be around again after a severe struggle with quinsy sore throat.

Soap Gulch

Soap Gulch. July 16. – For some unaccountable reason the correspondents of your valued paper in the neighboring towns have given the thriving city of Mudsville very little mention, so I shall endeavor to let the outside world know how we are prospering.

We can now boast of a store kept by Fred Arbaugh, a saloon owned by Thos. Pollard, a boarding house presided over by Mrs. F. Arbaugh and there is strong talk of a school house being built to teach "the young ideas," very soon.

We have seven families here now, and about twenty young men, but I must confess there is a dearth of young ladies, and I am requested to ask "if you cannot send up a carload at once from Dillon?"

The five stamp mill owned by the Pandora company is fast nearing completion and will no doubt be in operation in less than a week.

The mines in the vicinity are looking well and so many prospects are being worked that it would almost impossible to mention them all, but the most promising are the Pandora, owned by the Pandora Company, the Peabody owned by Dickey brothers, the Emma Nevada, owned by John Holehan and others, the Maud S. by Hank Stebbins, the Vaulty, by Dan McKeig. Mr. McKeig has also placer claims a mile southwest of Mudville which he mines on a small scale, owing to the scarcity of water here.

But enough for this time. When "our paper," gets started we will hope to see the Tribune on the exchange table.

THE HECLA WILL CLOSE

Owing to the Low Price of Silver – Mr. Knippenberg Will Go To Europe.

Hon. Henry Knippenberg informs us that the mines of the Hecla Con. Mining Co., will in all probability close down, owing to the low price of silver. With this object in view he transmitted the following telegram to the company's officers in Indianapolis.

To John Thomas, President, Hecla Con. Mining Co., No. 25, Wright's Block, Indianapolis, Indiana.

The present ruinous price of silver and certain further decline calls for immediate and concerted counsel. Shall I concentrate my efforts having in view the complete closing down?

To continue means ruin.

H. Knippenberg, General Mgr. Glendale, Mont., Aug. 15, 1892.

An answer to Mr. Knippenberg's telegram has been received at Glendale in which the president of the company gives instructions to make preparations to close down. The final shut down will take place in about two months.

Mr. Knippenberg has issued the following table in circular showing cost per ounce of silver produced (leaving lead out of the consideration) by this company during the past ten years.

>Silver sold in New York, Aug. 13, 1892 at 82 ½ cts.

[10 year breakdown here omitted]

>Ave. cost per oz. ten yrs. 92 ½ cts.

Mr. and Mrs. Knippenberg and daughter Mary Norwood, will go to Europe in April where they will remain for a year visiting Germany, France, Italy, and the Holy Land. Returning they will visit England, Scotland and Ireland.

Mr. Knippenberg has been the general manager of the Hecla Con. Mining Co. for twelve consecutive years, giving to this large concern and to every detail of it his personal attention, and now expects to surrender his present position next March, at least the active management. Glendale without Mr. Knippenberg and his hospitality and Christian home will not appear natural to many. No man in the state is a more ardent and devoted lover of his home and a closer student of his own business. The HCMC is an honor to Montana, it has been and is still a great blessing to thousands of toilers and a most profitable investment to the stock holders.

Deweys

Deweys, Oct. 3. – Work has been suspended on the ditch at Vipond, and the mill closed for the winter and all work on the mine which shows a good

quantity of free milling ore of superior quality.

The Lone Pine Consolidated Mining Co. keeps steadily at work. The mine looks better than ever.

The miners of the Tocquoholia, owned and operated by Long and Riley are on a strike. The miners ask for shorter hours and a better quality of whiskey, while the muckers ask for increased wages.

It is to be hoped that a speedy settlement may be effected between owners and laborers.

We hope the genial N.A.J. of Wisdom will not overlook his literary duties, now that he has entered the political arena.

Now that the citizens of Deweys have given up hopes of getting the World's Fair, they are beginning the fight to get the capital.

Mr. Vipond made the city a short visit on Tuesday.

A sudden quiet has fallen on our city. The front window panes do not break mysteriously. The Chinaman is not frightened out of a year's growth by a tick tack on the window; the tin does not push the canine down the street at the rate of 1.6093 kilometers per minute.

The reason of this quietude is that school has commenced and young America is confined eight hours per diem.

Verily the school ma'am is worthy of the remuneration which she receives.

The game season was opened by Dan Doolittle who killed three deer within two miles of the public square. Mark Lefler killed a bear in Charcoal basin while looking for grouse.

"Major Parks" made the city a short visit a few days ago.

Mr. Guy Ames has severed his connection with Dolman Mercantile Company and is going to Idaho. Guy has grown to be looked on as a fixture of

the town and all regret his leaving.

Mr. E.G. Bryant has delivered his first consignment of bears hides and oil. Four fine hides are on exhibition at Pond & Vance's. At present E.G. is up the river after more bear and is supplying the Travelers Hotel with trout, the smallest of which are 12 inches in length.

The political pot approacheth the boiling point.

Deweys is in favor of Bozeman for the capital.

A man never knows how much he amounts to or how necessary a commodity he is until the woods is full of candidates, each one of them willing to pronounce him the prince of good fellows – for his vote.

Mrs. George R. Vance is home from her visit among relatives at Glendale, Melrose and Rattlesnake.

Hand and Halbert have finished harvesting the first crop of oats ever cut with a self-binder this far up in the mountains. They were delayed last week by the snow storm but the bright, warm weather has fully ripened the grain and they will have a good yield.

Miss Lizzie Miller of Butte is visiting Mrs. T. J. Williams.

Mr. G. H. Cokendolpher one of Glendale's most popular young

men left last week to accept a position with Gunderson Bros., Meaderville, Mont. His many friends here wish him success in his new position.

Mrs. C. E. Wasson and A. L. Griffin of Indiana are visiting Mr. J. E. Allen, our city druggist.

Glendale is for Bozeman or the capitol.

Professor Kappes left Saturday for Chicago in response to a telegram announcing the serious illness of his wife. He has only been here a short time but has done much towards helping the interests of education. He has organized private classes in history, German, and music. His pupils were progressing wonderfully in all their studies. He was not only a teacher of rare ability but a source of pleasure and enjoyment to all with whom he came in contact and his sudden departure is sorely regretted. He gave a farewell lecture on Friday evening at the home of Mr. and Mrs. Conway on the life and character of Felix Mendelssohn, one of the world's greatest musicians and composers taken from real life as he was personally acquainted with him. Those present were Mesdames Rea, Williams, Sappington, Knippenberg, Boetticher; Misses Lizzie Miller, Clara Sharkey, Bessie Lawlor; Messrs. G.G. Earle, T. Teal, T.G. Williams, T. Sappington, Will Knippenberg, Rev. Spencer, H. Knippenberg, Otto Boetticher. The lecture closed with music by Professor Kappes. Mrs. Will Knippenberg and Mrs. G.B. Conway.

Beaverhead voters should not fail to bear I mind that one of their former citizens and long time residents of the county is

now a candidate for the legislature jointly with Deer Lodge. We refer to Mr. J.B. Losee, of Anaconda. Mr. Losee was formerly in business at Glendale, where he was in partnership with Charley Armstrong in the grocery business. He is well known by all old timers, as well as by many new comers, and should receive the unanimous support of all his friends in Beaverhead County. He will carry Deer Lodge County by at least one thousand majorities.

Birch Creek

Birch Creek, Oct. 31. — One of my letters to the Tribune must have escaped your notice else an account of the wedding supper given by Jacob Hartwig to

celebrate the marriage of his nephew Julius Hartwig would have appeared in your columns. Suffice it, however, to say at this late date that about fifty persons sat down to a sumptuous feast. The bride is a daughter of Mr. John Pfeifer of Boise, Idaho.

Free Hopp and wife are home after a three weeks sojourn in butte. Fred says Butte will get his support for the Capital.

Charles Haight and family of Eagle Gorge, Washington, are visiting Birch Creek friends.

We have before us fine looking gold quartz just brought in from the head of Birch creek. Look out for something good from this quarter next spring.

O. Willis, who has recently obtained a controlling interest in the Shelby iron mines, has resumed mining operations.

It seems our kick about mail irregularities between Dillon and Willis P.O. has not helped matters. Next time we shall go to headquarters with a protest.

Searching parties have been diligently looking over the country between Birch creek and Willow creek during the past two weeks in the hope of finding John Steiner who mysteriously disappeared while en route from Melrose to his home near Twin Bridges. It is said by the unfortunate man's friends that he was mentally unbalanced at the time and it is feared he has strayed into the mountains and perished from exposure. This supposition is strengthened by the fact of the missing man's buggy and harness having been found in the foot hills and because one of the horses and saddle which he had in the buggy is missing.

The people of Glendale evidently believe in foreign missions. Rev. J. H. Spencer reports an interesting service in that interest last Sunday evening and a good, round collection of \$70. The same service will be held in the Baptist church here Sunday morning. Specially prepared programs have been printed. All are invited.

Republican majorities in this county were increased on the average about thirty votes. The figuring of the Examiner is even less brilliant now than before the election, when it claimed the election of half its ticket.

Framers of the Constitution

The Society of the Framers of the Constitution of the State of Montana met Saturday last in the court room of Judge Hunt in Helena.

President W.A. Clark made a short speech in retiring from that office, which was responded to by Governor J.K. Toole with his usual eloquence. In the absence of Judge Pemberton, who was to have performed that task, Cornelius Hedges delivered the response for the society.

The following officers were elected for the ensuing year: L.H. Hershfield, president; W.W. Dixon, vice president; H. Knippenberg, secretary; R.O. Hickman, treasurer.

Melrose, Dec. 11. – One of the saddest and most distressing accidents that has ever occurred in this vicinity happened last Wednesday evening in “Sweybacker” gulch on McCarty mountain about fifteen miles from here, the result of which is that Bona Zeigler now rests in his grave, a mangled corpse, while his sister, Mrs. James Miller, is lying in a very precarious condition.

For some time past James Miller, Gus Mueller and Bona Zeigler (the unfortunate victim) have been engaged in quartz mining on McCarty mountain and about half past six on Wednesday evening, Mueller and Miller put seven sticks of giant powder on a candle box that was standing on end by the side of the stove, in order to thaw it out, as they intended going to the mine to fire some shots after supper. Zeigler had just returned from hauling a load of ore to Melrose and sat down by the stove to warm his feet, and just how the awful accident occurred will never be known, but it is supposed that as Zeigler sat down he gave the candle box a jar that threw the powder into the over, the door which was open. Jim Miller, Gus Mueller, Joe Zeigler and another man were eating supper at the time

and Mrs. Miller was standing by the stove washing dishes, but before Zeigler could move or give a word of warning the powder had exploded and did its deadly work.

Bona Zeigler had the right foot shot off at the ankle, the left leg broken, his right thumb shot off, his mouth torn open, so the jaw bone was exposed, besides being otherwise bruised and burned. Mrs. Miller’s left leg was broken below the knee and the bone shattered by being struck with a portion of the stove and the calf of the right leg gashed to the bone. She is also burned and bruised considerably. The other inmates of the house escaped with very slight injuries. A piece of iron missed Gus Mueller’s head by an inch and buried itself in the log behind him. The stove was blown literally to atoms, two rooms of the house were blown to pieces while the chinking was all knocked out of the remaining rooms.

Dr. Jones, of Glendale, was sent for immediately after the accident occurred and on his arrival everything possible was done to ease the suffering of the injured ones, but at two o’clock the next afternoon the spirit of Bona Zeigler passed away. Mrs. Miller was then moved to her home in Rochester, the journey being necessarily a very painful one to her. Dr. Jones, however, has hopes that, with skillful nursing, she will recover.

No one can realize what the sufferings of this unfortunate brother and sister were. To lay there in an open cabin all through the long, cold night and next forenoon fully conscious of their own and each other’s sufferings till death came to the relief of the one, is a picture too and to dwell upon.

Deceased was a promising young man, about 27 years old, and was well liked by everyone.

He leaves a wife and little girl two years old, besides his parents, aged grandfather and several brothers and sisters to mourn his untimely death and to them is tendered the heartfelt sympathy of many sorrowing friends and neighbors in this their time of affliction and loss.
